LOOK OUT FOR SIGNS THAT SHOW IT'S TIME TO REPLACE YOUR WATER HEATER*

- There are leaks or pools of water around the water heater tank
- Noises such as popping sounds and loud cracks coming from the water heater
- Rust-colored water is coming out of the water heater
- Lukewarm water is coming out of your faucet even at the hottest temperature setting
- Water heater is over 10 years old

Washington Gas offers rebates to help customers replace old water heaters and upgrade to new high-efficiency models. You can save up to \$400 on a new water heater for your home. For more information and to learn about other rebates for home heating and appliance equipment, visit WashingtonGasRebates.com/waterheater.

To learn more about EmPOWER Maryland and how you can participate, call us at 1-833-286-0860.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money.
